

Commission Electrotechnique Internationale  
International Electrotechnical Commission  
Международная Электротехническая Комиссия

Mr. Edward SPOONER

2010-06-25

Subject: 1906 Award

Dear Sir,

As you may be aware, the Officers of the International Electrotechnical Commission (IEC) created the **1906 Award** to commemorate the founding of the Commission and to honour those who have made an exceptional recent technical contribution to the development of a specific IEC work project. This is now the seventh occasion on which the annual awards have been made.

I should like to congratulate you on being among the experts involved in the IEC's technical work who are being presented this year with the **1906 Award**, following nomination by the officers of your technical committee/subcommittee. The Award recognizes the major input you have made to furthering standardization and related activities in the field of electrotechnology. On behalf of the IEC President and all the other IEC Officers, I express our sincerest appreciation of your past and future contributions to our technical work.

Please feel at liberty to advise your management, or any other appropriate persons, that the IEC is presenting you with this Award – indeed we would encourage you to do so.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'A. Amit', with a long horizontal stroke extending to the right.

A. Amit  
IEC General Secretary & CEO

## 1906 AWARD

The International Electrotechnical Commission  
expresses its sincere appreciation of the valuable and  
sustained contribution by

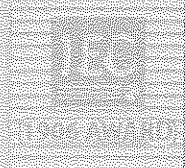

# Edward SPOONER

Expert of IEC Technical Committee No. 82,  
Solar photovoltaic energy systems

**Nominated by the Chairman and Secretary of IEC TC 82**

In recognition of his long association with TC 82 and its various working groups. He has taken on tasks in WG 6, the Joint Working Group, WG 3. His extensive knowledge of electrical engineering, and especially the subset of photovoltaics, has been extremely valuable to TC 82 in its writing of standards. His ability to work with other Technical Committees, making certain that the activities of TC 82 are in harmony with their standards, is outstanding.

**FRANK KITZANTIDES**  
IEC Vice-president  
Chairman of the  
Standardization Management  
Board

**AHARON AMIT**  
IEC General Secretary
